SUGGESTIONS AS TO HOW TO CONDUCT THIS STUDY

I can only share how this study was originally conducted and it was very successful. First of all, we tried to arrange a very informal atmosphere with the folks sitting in a loose circle. We began the session by having tea, or cokes and an informal time of fellowship. Then we had a prayer time with everyone suggesting names of those for whom we should pray. It was also mentioned each session that we expected each individual to have at least one person for whom they agreed to pray in regards to that person's salvation.

To actually begin the study the entire chapter was read aloud with each one willing to read taking the number of verses divided by the number of people present and each one read a portion. Then the first one on the left (a habit of mine) began by reading the first question and giving the answer. The verse where the answer was found also had to be given. Then the leader asked if everybody agreed. The discussion carried on as necessary but not too long. Then the next question was given to the next person until all of the fifteen questions were answered.

For the Think For Yourself discussion questions (numbers 16-17-18) all present gave their answers, once again going from the first one on the left and so on. Answering one question at a time, each person present gave reasons for the answer to each question. Discussion was as long or short depending on how the group felt. We did not carry the class session on too long. Every one was encouraged to prepare their answers BEFORE the session began if at all possible because they got more out of the discussion if they had thought about it.

SUGGESTIONS FOR PRINTING.

Just print out normally if you want one lesson per sheet, printed on one sheet of paper. However if you want to print on the back, follow these suggestions.

The margins are set with a binding margin on the left side of the paper. The margin setting is: L = 1.3" R=.5" T=.5" B=.5" use these settings to print the odd pages. Then go back to page 1 and set the margins as follows to print the even numbered pages: L=.5"R=1.3" T=.5" B=.5" and it will come out very close to give you the binding margin you need for stapling or binding in any way you like.
